# Product Selection: What We've Learned

# How Building Clean Can Help You

Find healthier, U.S.-made building products that are affordable

Product	Result
Luxury Vinyl Plank Flooring (LVP)	Switched to U.S. made, phthalate-free product for \$.60 less per square foot
Washer/Dryer Combo Unit	Saved \$250 per unit with a unit manufactured in-state
Water Heater	Replaced a more expensive, less efficient unit with a high-efficiency model manufactured within 500 miles of project site
Asphalt Shingles	Used ENERGY STAR certified shingles at \$1 less per bundle

# How Building Clean Can Help You

Retain good jobs and build  
vibrant communities by  
supporting local manufacturing

# Energy Efficiency and the Economy

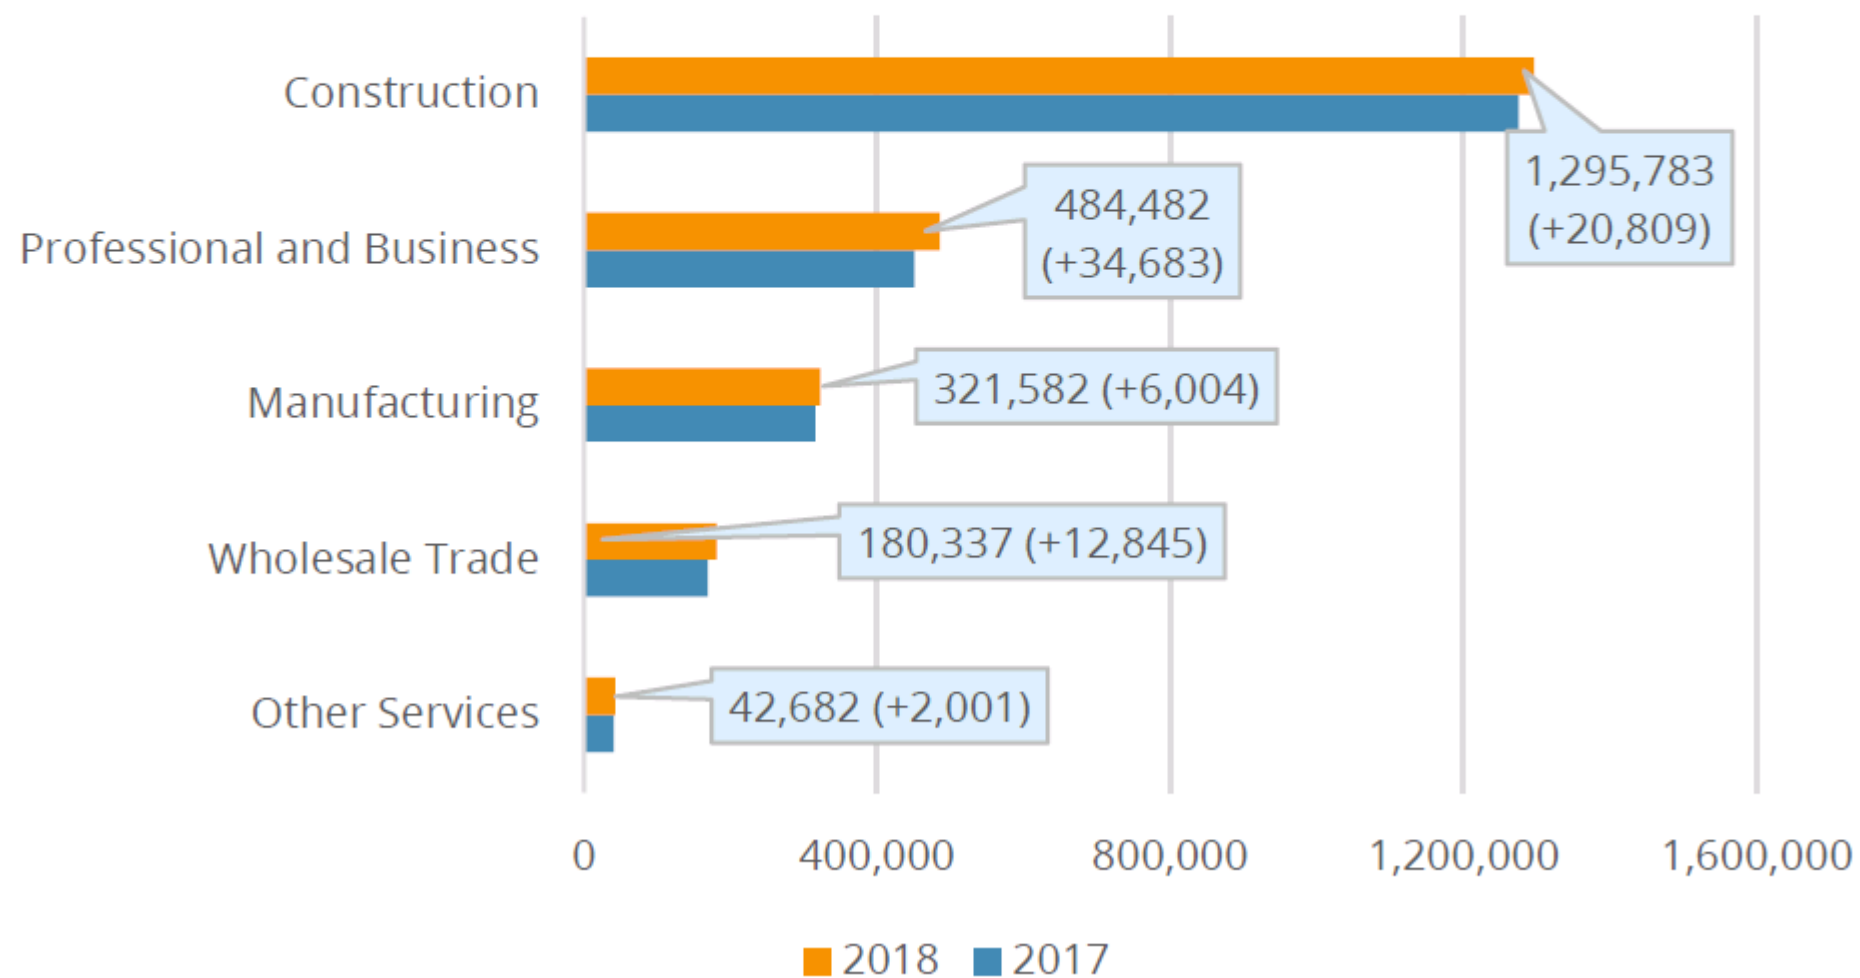

- There are more than **2.3 million Americans** working in energy efficiency—including **construction, manufacturing, wholesale trade, engineering, sales and other jobs.**
- More than **76,000 new jobs** were created in the energy **efficiency sector in 2018** alone, continuing a trend of the energy efficiency sector seeing the highest percentage growth of all the energy sectors.
